

DIVINE INTERVENTION – Where Faith Meets Physics™

Are you in need of profound healing? Ready for new and dynamic possibilities? Want to experience miracles in your life? Divine Intervention is about quantum-level healing, transformation, and self-mastery. It is holding the sacred space for miracles to occur. Based on shamanic principles and practices, it is where faith meets physics. Anything is possible!

WHAT is Divine Intervention?

Divine Intervention is referred to as the loudest, most specific prayer that can call the forces of nature and heaven together. Drawing on multi-dimensional aspects, the laws of a larger physics come into play. Physical plane laws no longer apply and miracles become possible.

HOW does Divine Intervention work?

The Divine Intervention Facilitator holds space for a split second of Heaven to appear in or for someone. During this process, profound healing occurs as the core issue underlying the disease is released. Physical plane manifestations and spontaneous remission of disease often occur.

WHERE did Divine Intervention come from?

These sacred teachings came through the Curanderos of Mexico. Starr Fuentes, current holder of the Divine Intervention lineage, gifted us with this ancient knowledge. Today, this form of spiritual healing is practiced throughout the world.

WHO can use Divine Intervention?

Divine Intervention can only be offered by a certified minister-practitioner known as a Divine Intervention Facilitator. However, anyone with a deep desire to be of service can become a facilitator of Divine Intervention.

WHEN is Divine Intervention appropriate?

It is appropriate at any time and for any reason, whether one is young or old. Divine Intervention works on all levels — physical, emotional, mental, and spiritual. Animals also respond favorably to this type of healing. And, Divine Intervention can be accomplished from a distance.

WHY use Divine Intervention?

Profound healing occurs at many levels with Divine Intervention. Across dimensions, throughout universes, along timelines, and at the cellular level, the possibilities are endless as healing proceeds in accordance with Divine timing. In our openness to receive, we can experience the healing power of the Divine.
