## Goddess ... God-Is

We have God and Goddess. They belong together. Actually, they are inseparable. Two sides of the same coin, one cannot exist without the other.

So many ancient religions had a male and female counterpart. Hinduism still honors the masculine and feminine in Krishna and Rhada. Today, we all share in this partnership of the divine.

It is the feminine aspect, our Shakti, that sparks the fire of creation. Goddess energy drives the creative process. That creative energy complements Shiva, so we can move from God to God-Is.

This energy of God-Is permeates our earth, our homes, our communities, and our children. In the spirit of cooperation, we embrace the God within and without. Our connection increases and light shines throughout humanity and creation.

In honor of the God-Is within all of us, let us acknowledge the fire of our Shakti energy.

## Heaven Help Us

In a recent conversation, a friend discussed having faith in divine outcomes. Yes, there is a divine timing in the order of things. Sometimes we must trust in what we cannot see, as we look beyond the appearances. Things are not always as they seem.

There are times we may feel immobilized by circumstances. We just cannot seem to put one foot in front of the other. Yet, our inaction may keep us from creating the life we want. We may miss the golden opportunities Heaven has sent our way.

It's been said, "Heaven helps those who help themselves." In order for Spirit or Source to work wonders, we have to take some action. We cannot sit around and wait for something to occur. It's our responsibility to take a step, even a baby step.

To move forward in life, we must be willing to take a risk. Even if we take that first risky step and fall, we only have to pick ourselves up and try again. We must remember, "The journey of a 1,000 miles begins with a single step."

## Poet's Corner

### Motherland

The Motherland  
Is calling me  
Across the miles  
And open sea

With open arms  
She sings to me  
A lullaby  
Of unity

She offers wisdom  
Flowing and free  
To anyone who  
Can hear and see

Her fertile lands  
Have claimed me  
Beckoning home  
From infancy

## ***Paradigm Shift***

In today's society, we are experiencing a paradigm shift. We are moving from a conventional model to a more spiritual approach to business and life.

In business, the idea of competition is giving way to cooperation. We are communicating at a higher level. We are sharing and collaborating in ways that contribute to our future on this planet. In the past, there was a clearer separation between the spiritual and material. Now, we are moving toward soulful service and sacred commerce.

In life and love, we are releasing the old ways for interdependence. The relationships we have with others is based on our soul connection. We are establishing spiritual partnerships. Our vision is a better world for ourselves and future generations.

As with any shift, we may experience growing pains. Some areas may undergo intense radical change. Others may only experience small adjustments. Either way, there will be light at the end of the tunnel. Fasten your seatbelts, hold on, and enjoy the ride!

## ***Heavy Weather***

We seem to be experiencing a lot of "heavy" weather and strange phenomenon these days. Storms and tornadoes, earthquakes and floods, droughts and wildfires.

It all seems surreal and unreal at times. As if we are in some altered reality filled with unpredictability and chaos. Yet, order can come out of chaos. With destruction of the old energies comes construction with new energies.

While there has been pain and suffering, there have also been miracles. Against all odds, a house was left standing, an infant survived, an elder lived. In the midst of tragic events, we cannot always see the higher purpose.

We may be in for more "heavy" weather. If we stick together, we will weather the storms of life.
